

An AI on your laptop

open models

Turn off wi-fi first. Ask both models the same three questions and write down what you see: the tokens per second shown below each answer, whether the answer holds, and anything that surprised you.

Laptop _____ **RAM** _____ **Graphics** _____

File sizes

gemma-3-1b · size of the file _____ gemma-3-4b · size of the file _____

Three questions, two models

Model	Tokens/s	Holds?	What did it say? What surprised you?
1 · A field of 4.5 ha needs 140 kg of nitrogen per ha. How much is that in total?			
gemma-3-1b			
gemma-3-4b			
2 · What is the capital of Lower Saxony, and what is it known for?			
gemma-3-1b			
gemma-3-4b			
3 · Translate into German: “The harvest was delayed by rain.”			
gemma-3-1b			
gemma-3-4b			

1B or 4B? Which model would you use for which of the three questions, and why?
